About

Self-Starter

Attention to Detail

Outdoor Enthusiast

Experience

Freelance Web Designer & Front End Developer

Gallery Landing Page

Designed and developed a landing page concept using Adobe XD, HTML5, CSS3 and JavaScript

Portfolio Website

Designed, developed and launched my portfolio website using Adobe XD, HTML5, and CSS3

freeCodeCamp Projects

Completed over 300 hours of coursework and projects through the freeCodeCamp curriculum, including projects incorporating responsive web development using HTML5 and CSS3

Visual Design and Communications Experience

My previous positions at non-profits have included responsibilities incorporating visual design and user experience, such as: maintaining and updating the company website, designing nationally distributed reports and data visuals, creating guides for the community, and designing and producing outreach and educational materials. Additionally, I led the design, editing and production of a bilingual, 60 page nutrition guide created in Adobe InDesign in my most recent role at CentroNía.

Program Coordinator, Food and Wellness

CentroNía, September 2016 to October 2017
